Event Link: <https://mhccnetwork.org/centers/global-mhcc/product/supporting-families-young-children-risk-ongoing-domestic-violence>

Through a case example of a family with young children who are at risk for continued experiences of domestic violence, this 1-hour webinar:

- *Discusses how to integrate a diversity and equity-informed stance that acknowledges sociocultural and historical trauma while addressing risk within families*
- *Demonstrates how to assess risk*
- *Identifies points of entry for intervention in partnership with families to prevent escalation of violence*
- *Provides practical safety strategies*
- *Reviews ways to engage in supportive conversations with parents and children about violence*

Event: Keeping it in the Family: Addressing Family Conflict in the Time of COVID-19

Date/Time: Watch anytime

Event Link: <https://mhccnetwork.org/centers/mountain-plains-mhcc/product/keeping-it-family-addressing-family-conflict-time-covid-19>

Families dealing with COVID-19 are facing a myriad of stressors that pile on top of their already complex lives, raising the risks for family conflict and violence. This webinar explores the added safety risks families are coping with and outlines a variety of strategies that can be successfully implemented using telehealth to strengthen families' capacities for managing this pandemic safely. In this session, participants will learn assessment and safety considerations in the time of self-isolation and quarantine and gain tools and skills to use with families to build protective skills and resources.

Event: Minimizing Risk for Conflict/Coercion in Families with School-Age Children

Date/Time: Watch anytime

Event Link: <https://mhccnetwork.org/centers/mhcc-network-coordinating-office/product/minimizing-risk-conflictcoercion-families-school>

This webinar provides an overview of some the risks, consequences, and intervention strategies related to a child's exposure to conflict and coercion in the home to support clinical efforts to address these situations, especially with the added challenges posed by COVID-19. A current case example in which telehealth is being used illustrates some key assessment, monitoring, and treatment tools that might help practitioners minimize or prevent the impact of these exposures. Additional practical suggestions are outlined to provide a context for encouraging family safety and well-being.

Event: The Strengthening Families Protective Factors Framework in Out-of-School Time

Date/Time: Watch anytime

Event Link: <https://vimeo.com/427498868>

Learn about the Strengthening Families Protective Factors Framework. Also, learn how healthy homes create an environment where students thrive and support the well-being of young people, as well as ways to engage parents as partners to promote school success and student well-being and how to make families feel part of the school community.

Event: When the Monsters Live with Us: Reflections on the Intersection of Structural Inequities, COVID-19 and Intimate Partner Violence and its impact on Young Children in Latin American Families (en español)

Date/Time: Watch anytime

Event Link: <https://mhctcnetwork.org/centers/national-hispanic-and-latino-mhctc/product/cuando-los-monstruos-viven-con-nosotros>

El impacto de la pandemia del COVID-19 ha iluminado las inequidades existentes con la carga de la crisis recayendo en las personas representando minorías raciales y étnicas y otros grupos marginalizados. Partiendo de un encuadre que integra la justicia social y las prácticas informadas en la diversidad y el trauma, esta charla virtual ofrecerá una visión general sobre el impacto de la intersección de las inequidades estructurales y la pandemia en los niños de cero a cinco años en familias Latinoamericanas. Se abordará la violencia de pareja en este contexto y sus implicaciones desde la perspectiva del niño pequeño, el cuidador / padre y las relaciones de apego.

Event: Finding Meaning and Navigating a New Normal: Self-Care While Supporting Others

Date/Time: Watch anytime

Event Link: <https://vimeo.com/415585125>

The world has changed. Our current situation is temporary, things will be different on the other side and lead to some permanent changes. Attendees will identify and practice strategies for understanding and managing stages of grief including finding meaning; examine concepts from the psychology of resilience; characteristics of compassion fatigue and crisis-related stress will be identified; strategies for establishing and maintaining physical and psychological wellbeing will be examined; effective ways to communicate with others to increase successful client support will be discussed.

Event: Partnering with Dads to Promote Family Wellbeing

Date/Time: Watch anytime

Event Link: <https://vimeo.com/403023745>

When programs support parents in building protective factors, families grow stronger and children benefit. Partnering with fathers intentionally, whether living with their children or not, is an important contributor to family wellbeing. This webinar will dig deeper into strategies for including and understanding dads.

Event: Relationships Matter

Date/Time: Watch anytime

Event Link: <https://vimeo.com/365131355>

In this presentation, we will explore how unhealthy relationships may impact the healthy growth and development of children, students and young people. Participants will gain a general understanding of teen dating violence (TDV) and its long-term impact. We will identify how TDV shares characteristics with other forms of domestic violence and peer abuse. This interactive webinar will include hands-on strategies and brief exploration of teen dating violence prevention strategies and some immediate take-aways to share with students, staff and colleagues.

Event: A Child's Perspective of a Traumatic Experience

Date/Time: Watch anytime

Event Link: <https://sesamestreetincommunities.org/activities/responses-trauma-age-age-video/>

This video was created as a visual tool for understanding reactions to traumatic experiences at different ages, and to highlight the powerful role of caring adults. As you watch, notice, consider, and reflect upon your own feelings and reactions. This will help you prepare as you share with parents the responses to trauma at different ages and stages (even babies respond to traumatic experiences)! This video only shows one type of traumatic experience (domestic violence), but the impact of all traumatic experiences is universal. However, there is good news: A caring adult can step in and change the trajectory. The power is in our hands.
