SUPPORTING FAMILIES AFFECTED BY AUTISM

IN THE SAN DIEGO & BAY AREA COMMUNITIES

Founded in 2003 Autism Tree Project Foundation (ATPF) is a 501(c)(3) organization dedicated to improving communities in San Diego County and The Bay Area through our mission of CARES: Community Awareness, Advocacy, Research & Early Intervention Screenings. ATPF's Youth Education and Developmental Services provides more than 20 FREE intensive programs to children and families impacted by autism that are aimed at improving their confidence, behaviors and their social communications. ATPF provides free Early Intervention Preschool Screenings to over 2,000 youth annually with over 20,600 preschoolers screened to date since 2006. ATPF benefits the entire family.

Every family tree is touched by autism.

If you don't know someone with autism you will.

Autism affects 1 in 50 school aged children, ages 6-17.*
