The Behavioral Health Services (BHS) Division of the County's Health and Human Services Agency provides a broad continuum of services for mental health and substance use issues.

Services are provided to groups across the lifespan—from perinatal, children, youth and families, to adults and older adults.

BHS promotes recovery, discovery, resiliency and well-being through prevention, treatment and intervention, as well as integrated services for clients experiencing co-occurring mental illness and substance use issues.

The Division embraces *Live Well San Diego*, the County's vision to promote healthy, safe and thriving communities Countywide.
